

LOS ANGELES COUNTY REGIONAL PARK AND OPEN SPACE DISTRICT

June 8, 2004

The Honorable Board of Directors
Los Angeles County
Regional Park and Open Space District
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, California 90012

Dear Directors:

APPROVE 2004 ANNUAL PLAN OF REVENUES AND EXPENDITURES AND ALLOCATE EXCESS FUNDS (ALL DISTRICTS - 3 VOTE ITEM)

IT IS RECOMMENDED THAT YOUR BOARD:

1. Approve the attached 2004 Plan of Revenues and Expenditures, which identifies new available excess funds of \$9,718,000 for allocation in Fiscal Year 2004-05 (Attachment I).
2. Re-allocate prior year excess funds as shown in Attachment II.
3. Authorize the Director of Parks and Recreation to award grants as identified in Attachment III.
4. Approve appropriation adjustment in the Assessment Grant Fund to transfer \$9,718,000 to the Available Excess Funds as shown in Attachment V.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The Safe Neighborhood Parks Proposition of 1996 (1996 Proposition) in Section 21, subsection (j) requires that, following completion of an independent annual audit of the District, an annual Plan of Revenues and Expenditures be prepared and approved by your Board prior to the end of the fiscal year. The attached Plan of Revenues and

Expenditures (Plan) is a forecast of the financial activities of the Los Angeles County Regional Park and Open Space District through Fiscal Year 2023-24 (Attachment I). This Plan demonstrates that sufficient funds will be available to finance, by the end of Fiscal Year 2008-09, all of the capital outlay project expenditures allocated by the Safe Neighborhood Parks Propositions of 1992 and 1996. The Plan also identifies the amount of available excess funds that may be allocated for additional projects in Fiscal Year 2004-2005. In addition, excess funds identified from year 1999 to 2003 Plans of Revenues and Expenditures are available for allocation or reallocation in Fiscal Year 2004-05. Allocation of those funds pursuant to subsection (b) of Section 24 will enable the District to ensure that excess funds are available for expenditure by Board action in future years.

The Proposition identifies two purposes for the Plan. First, the Plan must demonstrate that the District is managing its revenues and issuing debt in a manner that ensures sufficient funds will be available to finance, by the end of Fiscal Year 2008-09, the \$859,000,000 of capital outlay project expenditures allocated by the Safe Neighborhood Parks Propositions of 1992 and 1996. Second, the annual Plan must identify to the Board any available excess funds and designate the amount of such excess which, according to a formula prescribed by the Proposition and a recommendation by an independent financial consultant, may be allocated for additional projects.

The Plan reflects actual revenues and expenditures for Fiscal Years 1993-94 through 2002-03, estimated actuals for 2003-04, and projections for Fiscal Years 2004-05 through 2023-24. The projections for future years are based on a number of assumptions discussed in detail in the Plan, such as:

- anticipated growth of assessment revenue
- projected future interest rates and their effects on District investment earnings
- anticipated capital outlay project expenditures.

As required by the 1996 Proposition, the District prepared the attached Plan of Revenues and Expenditures with the assistance of an independent financial consultant. The District retained the services of the Public Resources Advisory Group (PRAG) through an existing consultant services agreement between that firm and the County of Los Angeles Treasurer and Tax Collector.

It has been determined that new excess funds in the amount of \$9,718,000 are available for allocation in 2004-05. Even though there was a significant drop in interest rates, the expenditure of funds remains slow, providing sufficient interest earnings on District funds to generate additional excess funds for Board allocation.

Honorable Board of Directors
June 8, 2004
Page 3

IMPLEMENTATION OF STRATEGIC PLAN GOALS

The proposed recommendations further the Board approved County Strategic Plan Goal 1 (Service Excellence) and Goal 4 (Fiscal Responsibility) by approving an annual Plan of Revenues and Expenditures which forecasts the financial activities of the Los Angeles County Regional Park and Open Space District through Fiscal Year 2023-24, and by allocating funds available for additional capital outlay projects.

CURRENT YEAR PLAN

The attached Plan of Revenues and Expenditures meets the requirements of the 1996 Proposition by showing that, based on current revenue and expenditure projections, the District can meet the \$859,000,000 capital outlay project funding requirements specified in the 1992 and 1996 Propositions prior to the end of Fiscal Year 2008-09. Current expenditure projections indicate that those capital outlay project expenditures will be completed by the end of Fiscal Year 2008-09, and that anticipated revenues will be sufficient to pay for them. Based on current projections of both revenues and expenditures, the independent financial consultant has determined that new excess funds in the amount of \$9,718,000 are available for additional capital outlay projects in Fiscal Year 2004-2005.

ALLOCATION OF EXCESS FUNDS

Funds determined to be excess in the 1999 - 2003 Plans of Revenue and Expenditures (Table 2 of Attachment I) are required to be allocated or reallocated in each fiscal year until they are encumbered in grant Project Agreements. Of the total of \$44,476,160 that has been determined to be excess in prior years, a total of \$22,741,054 is allocated to specified projects of which \$20,329,627 is encumbered in grant Project Agreements as of March 31, 2004 (Attachment IV). All prior year excess funds available for allocation in the current fiscal year, \$21,735,105, are recommended for allocation as shown in Attachment II, including allocation by Supervisorial District and by category.

Portions of the available funds have been allocated for projects in several actions by your Board during this fiscal year, including allocations to cities in the total amount of \$1,961,427. Section 24, subsection (b) of the 1996 Proposition requires that the County be granted an amount equal to the total amount granted to cities in each fiscal year. Approval of the grants to the County as identified in Attachment III will enable the District to comply with the requirement of the 1996 Proposition.

FISCAL IMPACT

The District's Plan of Revenues and Expenditures has no impact on the County General Fund. All expenditures of the District will be offset by District revenues. Funds for new excess funds available for allocation in Fiscal Year 2004-05 will be coming from the Assessment Grant Funds of the District. An appropriation adjustment of \$9,718,000 for this transfer is requested in this action.

FINANCING

The District's capital outlay project expenditures will be financed through a combination of bond proceeds and assessment revenues. The Propositions also contain an apportionment of annual assessment revenues that provides funding for maintenance of District-funded projects and administration of the District. The attached Appropriation Adjustment will revise the budgets of the Assessment Grant Fund, HB4 and Available Excess Fund, HD6, providing for Operating Transfer Out in the amount of \$9,718,000 in fund HB4 and Operating Transfer In to fund HD6 for the same amount , Attachment V.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The 1996 Proposition established financial reporting requirements for the District in Section 21 (i) and (j). The District is required to contract with an independent auditing firm to conduct an annual audit of District finances as of the end of each fiscal year. The report of that audit is required to be issued by the following January 1, and becomes the basis of an annual Plan of Revenues and Expenditures to be prepared by the District in consultation with an independent financial consultant.

The Plan is required to cover the entire period of the District assessment, which was first levied in Fiscal Year 1993-94 and was extended by the 1996 Proposition through Fiscal Year 2018-19. An additional five years, in which delinquent assessment revenues and grant administration expenditures are anticipated, has also been included. The Plan includes actual revenues and expenditures for past years and forecasts of revenues and expenditures for future years. The Plan is required to demonstrate that sufficient funds will be available to finance all capital outlay projects specified in both the 1992 and 1996 Propositions by the end of Fiscal Year 2008-09.

If the Plan of Revenues and Expenditures shows that the District has excess funds as determined by a formula in Section 24 (a) of the 1996 Proposition, the independent financial consultant is required to determine what portion may be made available in the following year without impairing the District's ability to finance all capital outlay projects specified in the Propositions by the end of Fiscal Year 2008-09, and meet its debt

Honorable Board of Directors
June 8, 2004
Page 5

obligations. When such excess funds are determined to be available, they are to be identified in the Plan. Up to 80 percent of such funds may be recommended for Board allocation to additional projects in accordance with Section 24.

CONTRACTING PROCESS

The County of Los Angeles, Treasurer and Tax Collector, Office of Public Finance, obtained Board approval on June 9, 1998, and subsequently on June 10, 2003, to enter into a Master Agreement for financial advisory services with three firms selected through a Request for Proposals process. One of these firms, PRAG, had previously advised the Los Angeles County Regional Park and Open Space District regarding the bonding capacity of the District for additional capital improvement projects and was retained for consultation on the 2000, 2001, 2002 and 2003 Plans of Revenues and Expenditures. Based on past experience, PRAG was retained again under the Treasurer and Tax Collector's Master Agreement for consultation on the 2004 plan.

IMPACT ON CURRENT SERVICES

The attached Plan has no impact on current services nor does it authorize expenditures. It is merely a forecast of annual District financial activities through the anticipated life of the District. Any grants of excess funds will increase the public recreation and open space benefits provided by the agencies authorized to implement capital outlay projects with those funds.

NEGATIVE DECLARATION/ENVIRONMENTAL IMPACT REPORT

Approval of this action is exempt from the California Environmental Quality Act (CEQA) according to Section 51061 (b)(3) of the Guidelines for the Implementation of the CEQA because it can be seen with certainty that it will have no significant effect on the environment. Any projects funded through the District are required to undergo the applicable CEQA review as required by the procedural guides adopted by your Board on March 30, 1993, and amended on June 17, 1997.

Honorable Board of Directors
June 8, 2004
Page 6

CONCLUSION

Your Board's approval of the attached Plan of Revenues and Expenditures and allocation of current year excess funds prior to the end of the current fiscal year will meet the requirements of the 1996 Proposition. Approval will also authorize the Auditor-Controller to adjust the budget of Regional Park and Open Space District for Fiscal Year 2004-05.

Respectfully submitted,

Tim Gallagher
For Tim Gallagher
Director of Parks and Recreation

PART 1

Report on the Revenue and Expenditure Forecast

I. THE SAFE NEIGHBORHOOD PARKS ACTS - THE 1992 PROPOSITION A AND THE 1996 PROPOSITION A

A. THE 1992 PROPOSITION A

The District was formed and annual assessments are levied pursuant to the California Public Resources Code and the Landscaping and Lighting Act of 1972. On November 3, 1992, the District was established when voters approved the Safe Neighborhood Parks Proposition of 1992 ("1992 Proposition"). The District was established for the preservation of beaches, parks and wetlands; the construction, renovation and improvement of new and existing recreational facilities; and the restoration of rivers, streams and trails in the County. The District's boundaries are coterminous with those of the County, encompassing 4,083 square miles and containing more than 2.2 million parcels. The District is governed by the County of Los Angeles Board of Supervisors with the District's day-to-day operations administered by the County Department of Parks and Recreation. The 1992 Proposition "capped" the assessment at \$9.39 per benefit point per year. The 1992 Proposition A assessment was first levied and collected by the District in Fiscal Year 1993-1994. The 1992 Proposition allows for assessment collections over a twenty-two year period with the final assessment scheduled for Fiscal Year 2014-2015.

B. THE 1996 PROPOSITION A

On November 6, 1996, voters approved an additional assessment with the passage of the Safe Neighborhood Parks Proposition of 1996 (the "1996 Proposition"). The additional assessment supplemented the existing assessment to fund comparable improvements to those adopted in the 1992 Proposition. However, the 1996 Proposition amended the 1992 assessment "to the extent and with the effect that the portion of any vacant parcel of land, and the vacant portion of any partially improved parcel of land, in excess of two and one-half acres (2.5) shall not be assessed." To clarify any inconsistencies between the two Propositions, the 1996 Proposition further added that:

"It is the intent of this resolution that the method of assessment with respect to both the 1992 Assessment and the Additional Assessment be identical in all respects. Any such discrepancies, differences or variations in the method of assessment shall be resolved in favor of the Engineer's Report with respect to the Additional Assessment."

Finally, the 1996 Proposition "capped" the additional assessment at \$5.07 per benefit point per year. The 1996 Proposition assessment was first levied and collected by the District in Fiscal Year 1997-1998. The 1996 Proposition A allows for assessment collections over a twenty-two year period with the final assessment scheduled for Fiscal Year 2018-2019.

C. THE ASSESSMENT / PLEDGED REVENUES

The District's budget and accounting systems have been structured in accordance with the revenue flow and accounting requirements provided by the Propositions. The District's primary revenue source is the assessments that are levied annually on each of the approximately 2.2 million parcels within the District (except for uninhabited agricultural lands, cemeteries, utilities and other exempt parcels). Assessment revenues and interest earnings are distributed in the following manner: a minimum of 80% (but not more than 85%) of the assessments will be used for the payment of debt service on bonds, notes and other obligations issued by the District and for the direct, capitalized costs incurred on approved Projects; 15% of the assessments will be used for the maintenance and servicing of completed Projects; and up to 5% of the assessments will be used to pay for the District's ongoing administrative expenses.

D. RATE AND METHOD OF ASSESSMENT/BENEFIT POINTS

The rate and method of apportionment for use in levying annual assessments for various categories of property area as set forth in the Engineer's Report for County of Los Angeles Landscaping and Lighting District No. 92-1, which was adopted by the Board of Supervisors on March 17, 1992 and modified on June 18, 1996 to include the additional assessment. Pursuant to the Engineer's Report, the level of each assessment is based on the size and use of each parcel and the resulting benefit each parcel will receive from the proposed Projects. The estimation of such benefit is quantified in benefit points. Pursuant to the Proposition, the annual rate of each assessment may not exceed \$9.39 per benefit point for the 1992 Proposition and \$5.07 per benefit point for 1996 Proposition. The annual assessment for any parcel will consequently equal the annual rate determined by the Board of Supervisors multiplied by the number of benefit points applicable to each parcel. For purposes of this report, it is assumed that assessments will be levied at the maximum allowable annual rates.

The overall level of the District's assessments will increase as parcels are subdivided and vacant property is developed. Properties owned by public agencies, such as cities, the County, the state or the federal government, would not be assessed except when such property is not devoted to public use. Rights-of-way owned by utilities, railroad operating rights-of-way, uninhabited agricultural lands, cemeteries and certain other properties are also exempt from the assessments. Individuals who qualify for the California Property Tax Postponement Program, which generally provides for the postponement of certain payments by individuals 62 years of age or older of property taxes attributable to residential dwellings, may also qualify for postponement of payment of assessments levied by the District. In the event of any allegation of errors of assessment, including circumstances that do not precisely fit the intent of the Propositions, such alleged errors will be reported to a committee appointed by the County Board of Supervisors. The function and authority of this committee will be to recommend corrections or adjustments that are consistent with the concept, intent and parameters of the Propositions and the District's program of levying and collecting the assessments. Unless the proposed corrections and adjustments of the committee are appealed to the County Board of Supervisors, they will be incorporated into the assessment roll.

II. EXISTING BENEFIT POINTS INVENTORY

The most accurate way to prepare a projection of assessment revenues is to first prepare a projection of benefit points within the District. The first step in this process was to determine the current inventory of benefit points.

The benefit point inventory provided by the Auditor-Controller is summarized by assessor use code in Appendix A. There are approximately 702 assessor use codes applicable to property in the District. For purposes of the revenue forecast, the assessor use codes for regular parcels are grouped into six major categories: developed residential, developed non-residential, undeveloped residential, undeveloped non-residential, recreational, and institutional land uses.

The information provided by the Auditor-Controller for the tax roll in Fiscal Year 2003-2004 indicates that the cumulative benefit points total 5,414,389 and consist of 3,680,217 developed residential (including mobile homes), 1,252,375 developed non-residential (including recreational, institutional, possessory interest and "lift" parcels), 166,188 undeveloped residential, and 315,609 undeveloped non-residential benefit points.

The Auditor-Controller does not enroll any assessments for parcels that are less than \$0.17, or have missing information and/or any other parameter used in calculating benefit points (these parcels are separately identified by the Auditor-Controller in a Parcel Exception Report). The District staff investigated the nature of the parcels and from historical experience determined that most of the exceptions fall into one of three major categories: 1) incorrect, missing or unknown use codes 2) missing land acreage, or 3) missing square footage. Other minor categories are 1) the parcel is part of a common area, or 2) the parcel is considered a sliver parcel. These two types of parcels are not considered billable. Some District parcels that do not have acreage information from the Department of Public Works have not been assessed. These parcels have been reduced considerably due to aggressive efforts of District staff to procure the missing information. The District has contracted with the Assessors Department to reduce the number of parcels in the exception report. As District staff perform research, analysis and site inspections, parcel information from the Exception Report is corrected. Often times the correction results in benefit point increases.

III. PROJECTION OF BENEFIT POINT GROWTH AND ASSUMPTIONS

A. BASE BENEFIT POINTS INVENTORY

The existing inventory of 5,414,389 benefit points is used in the projections of future growth, for purposes of calculating projected assessment revenues. Total assessment revenues were derived by multiplying the assessment rates times the benefit point projection.

B. BENEFIT POINT GROWTH ASSUMPTIONS

For the 2003 and 2004 Plan of Revenues and Expenditures, the District is assuming future benefit point growth will continue at its historical growth rates. The future Benefit Point growth rate is based on the annual historic compounded growth of the aggregate Residential and Non-Residential Benefit Points categories starting from Fiscal Year 1996-1997 through Fiscal Year 2003-2004. Using such methodology, the assumed benefit point growth rate is 0.283% per year for residential properties and 1.233% per year for commercial/industrial properties.

C. ASSESSMENT REVENUE ASSUMPTIONS

Based on information provided by the County of Los Angeles Auditor-Controller, the District adjusted the assessment assumptions to account for appeals, parcel enrollment losses, delinquencies, and County collection/administrative fees. These assumptions are summarized below:

1. Appeals Rate. The proposition allows for adjustments to assessments based on inaccurate acreage, inaccurate assessor use codes, conservancy properties, etc. Based on actual appeals data for Fiscal Year 2002-2003, the appeals rate was equal to 0.315% of the gross assessment levy and this rate is applied for each subsequent year. Note that the appeals are processed separately by the Auditor-Controller. Once the basic program calculating benefit points is run, the Auditor-Controller runs an "override" program to account for those parcels whose benefit point calculations must deviate from the "normal" methodology. Assessment appeals are also included in the overrides.
2. Parcel Enrollment Losses. The report adjusted the assessment assumptions to account for losses which occur between the Auditor-Controller's submittal of direct assessments to the County and the reconciliation of parcels which were actually enrolled on the secured tax roll. Based on the existing Auditor-Controller program calculation of benefit points and the actual amounts enrolled for Fiscal Year 2003-2004, a revenue loss of 0.0138% was estimated. Note that these losses often are caused by changes in the characterization of properties including possessory interest parcels, government-owned properties, properties with *de minimis* assessed values, etc.

3. Delinquency Assumptions. For purposes of this report, the Fiscal Year 2002–2003 delinquency rate of 3.49% has been used based on the 4th Paid Apportionment Ledger for direct assessment fund number 036.92, the tax collection account number designed to track assessment collections. The report has included in the revenue projections the standard ten percent redemption penalty fee as well as an average annual delinquency interest rate of nine percent. The report has used the County's existing assumptions regarding delinquency recovery rates of 91% over 5 years based on a "sliding scale" of 45% recovery for Year 1, 22% for Year 2, 11% for Year 3, 9% for Year 4, and 4% for Year 5. The actual County delinquency interest rate is 1.5% per month (or 18% annualized). However, the 9% delinquency interest rate assumption is premised on straight-line collections through the fiscal year. Thus, delinquency interest rates are 9% for collections of past due assessments of the first year, 18% for the second year, 27% for the third year, 36% for the fourth year and 45% for the fifth year. Note that the report has not made any adjustments in revenue projections for the Property Tax Postponement Program, the 5-Year Payment Plan, or for any revenues generated by County foreclosure actions. The result of these conservative assumptions was to assure that the report's cash flow projection was non-speculative in nature.
4. Auditor-Controller Collection and Administrative Fees. The Auditor-Controller charges the District a base-programming fee of \$112,500 per year. This programming fee funds the calculation of benefit points for the entire secured roll, as well as the production of the Direct Assessment Exception Reports mentioned previously. Note that the Auditor-Controller imposes a \$0.17 per parcel fee for the levy and collection of direct assessments on the secured tax roll. All of these administration costs are borne entirely by the administration account.

D. INTEREST REVENUE ASSUMPTIONS

District funds earn interest at the rates paid on the County of Los Angeles Treasurer's Pooled Investments. Revenue from interest on District funds is projected for future years by applying current interest rates to projected fund balances. Using historically low current interest rates, the cumulative total Excess Funds through FY 2023-24 (see Table 2) is projected to be approximately \$30 million less than the cumulative total Excess Funds that was projected to be in last year's Plan of Revenues and Expenditures. It should be noted that if interest on District Funds were instead projected by applying more historically average interest rates, projections of cumulative total Excess Funds would rise to levels approaching projections in previous year's Plans of Revenues and Expenditures.

IV. PROJECT COSTS AND PHASING ASSUMPTIONS

The update to the expenditure program consisted of three separate steps. The first step was to update the program with actual expenditures for prior years. The second step consisted of updating the expenditure program with estimated actual expenditures for the current fiscal year. And the third step involved projecting the remaining expenditures for the life of the program.

In order to project the remaining expenditures time frames, the District in year 2000 designed a survey form to collect information on the timing of when monies would be needed by the agencies. It requested certain identifiers of each project, such as grant number (if one has been issued), start date of construction, expected completion date of construction, description of project, and anticipated timing request for reimbursement from the County. Beginning 2001 and forward, the data was updated by applying information received from the agencies, such as extension of grant expiration dates and anticipated requests for reimbursements.

Table 1 below shows historical actual expenditures thru Fiscal Year 2002-03, estimated actual for 2003-04 and forecasted future expenditures.

Table 1

Actual and Projected Expenditures from 1993-94 to 2008-09 (in \$1000)

	Actual							
	1993-94	1994-95	1995-96	1996-97	1997-98	1998-99	1999-00	2000-01
Bond Financed Improvements	17,210	35,686	52,052	58,080	56,766	56,453	66,959	75,179
Pay As You Go Improvements	28,081	11,622	11,655	23,489	6,850	10,675	3,449	7,877
Total Project Funding	45,291	47,308	63,707	81,569	63,616	67,128	70,408	83,056
Cumulative Project Funding	45,291	92,599	156,306	237,875	301,491	368,619	439,027	522,083

	Actual		Estimated Actual	Projected				
	2001-02	2002-03		2004-05	2005-06	2006-07	2007-08	2008-09
Bond Financed Improvements	57,994	40,344	27,992	10,531	-	-	-	-
Pay As You Go Improvements	1,018	3,354	32,465	61,727	48,975	29,671	15,363	7,483
Total Project Funding	59,012	43,698	60,457	72,258	48,975	29,671	15,363	7,483
Cumulative Project Funding	581,095	624,793	685,250	757,508	806,483	836,154	851,517	859,000

The table above illustrates that through a combination of existing bond proceeds, shown as phased out in Fiscal Year 2005-06, and pay-as-you-go financing, the total project needs of \$859,000,000 in improvements can be fully satisfied by Fiscal Year 2008-09, as required in the Propositions.

V. EXCESS FUNDS

As the capital funding requirements are satisfied, allocations for grants in furtherance of the purposes of the Propositions can be made from "excess" revenues¹. Under the 1996 Proposition, the County's independent Financial Consultant shall annually determine what portion of the excess revenues from the prior year can be made available for other projects in the next fiscal year without impairing the District's ability to finance all of its planned capital outlay projects or its ability to issue or repay bonds, notes or indebtedness. According to this 1996 Proposition, 80% of the "available excess" shall be made available to the Board for its use on other projects.

The 1996 Proposition, in subsection (j) of Section 21, requires that the District consult with an independent Financial Consultant in preparation of each year's Plan of Revenues and Expenditures. For the 1997 baseline Plan of Revenues and Expenditures, a consulting team was retained by means of a Board-authorized solicitation of proposals, and the same team was employed for the preparation of the 1998 and 1999 Plans. The District engaged the services of Public Resources Advisory Group ("PRAG") to serve as independent Financial Consultant for the 2000, 2001, 2002 and 2003 Plans. This year, the District's consulting services were also provided by PRAG through a contract between PRAG and the County of Los Angeles Treasurer and Tax Collector.

The 1996 Proposition, in subsection (a) of Section 24, also requires the independent Financial Consultant to determine what amount of the excess funds, if any, from the prior year's audited financial statements may be made available in the next fiscal year without impairing the District's ability to finance by June 30, 2009 all \$859,000,000 in capital outlay projects required by the 1992 and 1996 Propositions, and without impairing the District's ability to service its debt. That amount called "Available Excess" is required to be recommended by the independent Financial Consultant each year for use by the District in preparing the annual Plan of Revenue and Expenditures.

For Plan Year 2004, the Financial Consultant, PRAG, has determined that \$9,718,000 in additional excess funds is available. Even though interest rates have gone down, expenditures were so much lower than projected that the earnings realized were enough to declare additional excess funds for Board allocation.

¹"Excess" is defined in Section 24(a) of the 1996 Proposition as the excess of (1) assessment revenues collected pursuant to this resolution and the 1992 Order plus investment earnings thereon, and any other revenues of the District (excluding bond proceeds or any other evidences of indebtedness, but including collections of delinquent assessments and interest and penalties thereon), all cumulative to the date of the independent audit, over (2) amounts expended for capital outlay (excluding capital outlay funded with bond proceeds or other borrowed funds), and amounts expended, or allocated for maintenance and servicing, administrative costs and debt-service, all cumulative to the date of the independent audit.

Table 2 below depicts past allocations and projected allocations of the “available excess” for grants, assuming that District expenditures in future years are as projected. If District expenditures lag behind projections, as they have consistently in the past, then additional allocations of excess funds will be recommended next fiscal year. Interest earnings on the excess funds are not shown separately in this table. They revert to the assessment grant fund and form part of the base in the determination of available excess for the following year.

Table 2

Excess Funds Deposits (x \$1000)

Fiscal Year	Excess Funds Determined	Total
1999-00	8,000	8,000
2000-01	21,149	29,149
